

Five KCST students, Abdullah Abomara, Abdullah Al-Kandari, Alia AlMuwaizri, Fatemah Abualhassan and Joud Aboutamar, came in the first five places out of six for the second year in a row. The program, sponsored by the Kuwait Foundation for the Advancement of Sciences (KFAS), aims to instill the basic concepts of information and communication technology. During the program, students dealt mainly with four topics; 5G Networks, Artificial Intelligence (A.I.), Cloud Computing, and the Internet of Things.
